# Special PixInsight Processing Workshop at the next Astrophotography Meeting on Tuesday, March 12, 2019.

This meeting is sponsored by West Jersey Astronomical Society and is open and free to everyone. Membership is not required.

It has been requested by several individuals for a complete PixInsight processing demo. Since it's galaxy season, what better way to do this then with the Blackeye Galaxy, M64.

This session will be treated as a workshop. Below, I have included a link to download the original stacked image of M64. This is presented in both .FIT and .XISF format. In a few days, I will also include a link for the entire processing workflow. This way, you can try to perform the processing yourself before the workshop, so that if you have specific questions, we can address them at the workshop meeting.

## Attachments:

Original unprocessed stack luminance for M64 Galaxy (.FIT and .XISF format)

Final RGB color image for M64 Galaxy (.FIT and .XISF format)…

## Workshop / Astrophotography Meeting

Tuesday, March 12, 2019
Virtua Health & Wellness Center, Conference Room A
Moorestown, NJ  08057
Time: 7:00 to 9:00 pm

You are encouraged to bring your laptop and work through the demo. You can download a PixInsight trial version if you do not already have it.

See you then!

Regards,
Daniel McCauley
