

Comet C/2021 A1 (Leonard)

Circumstances for Atsion Field, Wharton State Forest, New Jersey
Eastern Standard Time

Date December	Day	Comet Leonard Rises (am)	Altitude @ 4 am	Altitude @ 5 am	Astro Twilight Begins (am)	Altitude @ Twilight Begins
7	Tuesday	2:19	17.2°	28.4°	5:30	34.0°
8	Wednesday	2:48	12.2°	23.3°	5:31	29.1°
9	Thursday	3:24	6.1°	17.1°	5:32	23.0°
10	Friday	4:04	-0.8°	9.8°	5:32	15.7°
11	Saturday	4:50	-9.7°	1.6°	5:33	7.5°

Permission to observe at Atsion Field has been granted to West Jersey Astronomical Society members by the Wharton State Forest Supervisor. Members must be carrying their membership card and using astronomical equipment while there during nighttime hours.

Atsion Field is located off Rt 206 at 39° 44' 32" north latitude, 74° 43' 28" west longitude, near the junction of Rt 206 and Atsion/Quaker Bridge Rd. It's 10 miles south of the Red Lion Circle (junction of Rts 70 & 206) and 7 miles north of Rt 30 in Hammonton, NJ.

Astronomical twilight data is from the USNO's MICA software; comet rise times and altitudes are from SkyTools.
